Check out a DVD Cleaner Kit

When DVDs start to skip and freeze, in addition to checking the DVDs for smudges and scratches, the drive itself is often overlooked as a cause. Keeping your DVD drive clean is just as important to smooth play as a clean DVD. DVD Cleaning Kits are the easiest way to clean your DVD players and drives. The kits consist of a special disc that is inserted into the drive. The disc spins in the drive and cleans the lens. You can check out a DVD Cleaner Kit from the library. Inquire at the Circulation Desk.
